

JUMPSTART BY MEDTRONIC VIRTUAL EVENT

Medtronic

Hello FRC teams!

Kickoff your *FIRST* Robotics season by attending the second annual JUMPSTART training event sponsored by Medtronic! This year, we are adapting and expanding to deliver engaging virtual experiences with presentations organized by Medtronic, Delta ModTech and St. Cloud State University. Rather than replicating the in-person long days, we will host three virtual sessions on the Saturday mornings listed below.

Your team is invited to submit an abstract to present during the JUMPSTART program. Presentations will be in various formats including live demos, poster chats, or online only information. Topics of interest include everything from writing a Chairman's Award submission to building technical skills in the off season. Please submit your abstract using this [online form](#) by September 28th. Further details will be emailed once your abstract has been reviewed and accepted.

We're looking forward to engaging with you in this experience! Watch for team registration to open in October.

What: Invitation to present at JUMPSTART
