

JUMPSTART BY MEDTRONIC VIRTUAL EVENT

Medtronic

Hello FRC teams!

Registration is now open for the second annual JUMPSTART training event sponsored by Medtronic! This year, we are adapting and expanding to deliver engaging virtual experiences with presentations organized by Medtronic, Delta ModTech, St. Cloud State University and Central Robotics Hub. Rather than replicating the in-person long days, we will host three virtual sessions on the Saturday mornings listed below.

We are strongly recommending teams who can safely socially distance to attend this virtual experience as a team. The agenda for each Saturday will be different, including a variety of both technical and non-technical training sessions, and highlights from our sponsors. Registration will capture which date(s) your team plans to attend. If plans change, please update your registration submission by emailing rs.first@medtronic.com.

[Click here to register your team for JUMPSTART](#)

The deadline for team registration is Wednesday, October 21st

What: Register your team for JUMPSTART
Who: *FIRST* Students, Mentors & Alumni
Where: Online! Streaming live presentations over ZOOM
When: Saturday mornings 9 AM – 12 PM CT; October 31, November 14 & December 5

The agenda and sessions are continuously being developed. In addition to the training sessions, here is a sneak peek at the highlights and keynotes being planned:

October 31: An appearance by Dean Kamen, Founder of *FIRST*, inventor and entrepreneur, an overview of Medtronic technology by Mike Hess, VP Corporate Technology & Innovation, and information about careers at Medtronic including tips for internships by Medtronic Campus Programs.

November 14: Live stream of automation at Delta Modtech, live machine demonstrations and shop floor walk-through, an overview of Delta ModTech with second generation owner Wend Stromberg, and interview with *FIRST* alumni and current Delta intern.

December 5: Medtronic product fair, keynote on diversity, inclusion, and equity, and more developing.

Contact rs.first@medtronic.com with questions or to make changes to your team's registration.
