

SPEC CHECK

When: February 11, 2022

Where: STMA HS

5800 Jamison Ave NE

St Michael, MN 55376

This year's SpecCheck is going to be run a little differently. We will be hosting both in-person inspections and Q&A as well as allowing teams to be inspected via Microsoft Teams.

IN PERSON SPEC CHECK

In person will follow a very similar format to previous years. Show up to STMA HS, get your robot inspected by an LRI, work with CSAs on the control side, and check out other robots.

VIDEO STREAM INSPECTION

Teams that will be inspected by video-stream will do so by appointment. We are going to give preferential treatment to the teams that sign up first, and then look at other factors including distance, need, etc.

REGISTRATION

[Please fill out this form to sign up for SpecCheck](#)

More information will be sent out to registered teams early next week.
